## MADRID IS HOPELESS

No Expectation of Success in the Present Conflict

## PEACE AT ANY PRICE PARTY GROWING IN STRENGTH

Madrid, May 31—Special—The hopelessness of Spain's struggle against the United States is acknowledged, although guardedly, in the best informed government circles, and the peace party is growing in strength daily. The mass of the Spanish people are as wailike as ever. They are, as a rule, ignorant, and have been deluded by the government into the belief that the Americans are a semi-barbarous, cowardly race that will fall before the Spanish arms as did the Incas of Peru or the Aztecs of Mexico. But among the more intelligent people—the merchants and middle classes generally—the hopelessness of the pending struggle is recognized by many an ominous shake of the head, and these are beginning to exercise a pressure upon the government in favor of peace at almost any price. They have not yet openly advocated the surrender of any of Spain's colonial possessions, but they are gradually coming around to a realization that such a surrender will be necessary in order to obtain peace. The government is in a sad predicament. If the war is continued defeat is acknowledged and inevitable. If concessions are made the war party will revolt, and under the lead of Don. Carlos the government will be overthrown. No government was ever in a more sorry plight.

## Officials Are Placid.

Washington, May 31—Special—There is a serenity that can only be born of confidence at the war and navy departments. Alarming reports as to the safety of our ships and fleets are circulated here hourly, but only cause a smile upon the faces of well informed officials. Said one of these today: "Reports of injury to individual ships are sheer nonsense. There are no individual ships. They are all massed. As to reported disasters to either squadron we can well afford to laugh. All are strong enough to care for themselves, and are far stronger than any Spanish force that can be brought against them. We don't worry about our vessels of war because there is no occasion for worry."

## Gave Them a Warning.

Hong Kong, May 31—Special—Letters received here yesterday from Manila say much sickness prevails aboard the cruiser Boston. It is stated that the illness is due to eating fish which had been poisoned by the Spaniards. Dewey has had to teach the Spanish forces in Manila another lesson. He had promised that if the Spaniards refrained from strengthening the fortifications he would not bombard the city. A week ago the Spaniards were observed violating this pledge, and Dewey fired a shot over their heads as a warning. Work was stopped immediately.

## Spurns the Offer.

Washington, May 31—Special—Advices have reached Washington, of additional proposals made by the Autonomist government of Cuba to the government of the Cuban republic by which it is urged that the insurgents join with the Spanish forces in repelling the American invasion in consideration of which peace and freedom are to follow. Gomez spurns the offer, and closes his reply with these words: "Free Cuba! Hurrah for the United States!"

## A Battle Expected.

Washington, May 31—Special—Conviction is growing that there will be a battle at Santiago soon. Cervera is expected to make a break for liberty as soon as the American land batteries begin peppering his fleet and give battle to Schley's squadron.

The cabinet is in session today to discuss the Santiago problem.

## Sneaked Back Again.

New York, May 31—Special—A dispatch written here says three of Cervera's ships tried to escape from Santiago, but sighting Schley's squadron, fled to cover again.

## The Embarkation of Troops.

Tampa, Fla., May 31—Special—The embarkation of troops for the invasion of Cuba commenced last night and

has continued all morning. Nearly all the regulars have already gone aboard, and a portion of the volunteer troops will soon leave. It is understood that General Shafter's yellow fever immunes will leave Mobile tomorrow, while Roosevelt's rough riders will not be far behind.

## Troops Successfully Landed.

Key West, May 31—Special—The steamer Florida returned this morning after having landed five hundred Cubans and a large quantity of arms and ammunition on the east coast of Cuba. The Spaniards were outwitted and not a shot was fired in effecting a landing.

## May Have Fought.

New York, May 31—Special—A dispatch from St. Thomas says an incoming steamer reports having heard heavy firing off the coast of Porto Rico. It is thought the Spanish torpedo boat destroyer Terror and an American warship have had a fight.

## Coqueting With Morro.

Key West, May 31—Special—All is quiet off Havana. The blockaders have dared Morro to fire, but the Spaniards will not open.

## Off For Tampa.

Chickamauga, May 31—Special—The First Iowa, Second Wisconsin, Fifth Illinois, and One Hundred Fifty-seventh Indiana depart for Tampa tomorrow.

## STATE CYCLE MEET HOLDS FORTH HERE

## LEAGUE OF AMERICAN WHEEL-MEN WILL SANCTION

September 10 has been the date decided on—Will Bring Many Noted Riders To This City—Local Cyclists Are Interesting Themselves in the Matter.

Janesville has been offered the date of September 10, for a Wisconsin race circuit meeting. Fred L. Schaller, of Sparta, chairman of the Wisconsin division racing board, having arranged the dates for the cities throughout the state. In announcing the dates Mr. Schaller says: "After a great deal of thought and hard labor, I have finally arranged the Wisconsin race circuit for 1898. You will notice that I have given your town September 10, and hope you will be able to arrange matters so as to accept it. If you wish to make a change in your date perhaps I can accommodate you."

Not Definitely Settled.

Whether or not the Bowery City will avail itself of having a league meet in this city this summer, is a matter that remains to be seen. To successfully carry out such a meet in this city would involve considerable expense not only for prizes but for many other incidentals, and local parties would have to first guarantee the amount.

The giving of a league meet in this city would be the means of bringing here several of the fastest cycle riders in this part of the country. A few years ago a league meet was given at the fair grounds, and it proved a success in every way.

No race meet nor fair is liable to be given here this season, and for this reason a cycle league race would no doubt prove a paying investment.

The Summer Schedule.

The schedule as arranged by Chairman Schaller includes all the leading cities throughout the state so arranged that the fast riders of the state may race through the months of August and September. Among the cities on the list in this vicinity are Stoughton, Monroe, Brodhead, Madison, Dodgeville and Darlington.

Commenting on a possible desire to secure a change of date, Chairman Schaller says:

"The dates are subject to change, but it is the earnest desire of your state chairman that you accept the dates given, if possible, as they will insure a grand following of the best men that ever followed any state circuit, there being no long jumps to tire the circuit chasers. Please advise me at once as to whether you can accept the date assigned you or not. (Accept if possible.) A speedy answer of your acceptance will greatly help me in arranging the state circuit."

## OBSERVED AT GRANGE HALL

Residents of the Town of Janesville Celebrated Memorial Day.

Memorial day exercises were observed yesterday at the Janesville Grange hall north of this city, and a large number were in attendance. Sheriff J. L. Bear was master of ceremonies over a program that proved a most interesting one in every detail. At the close of the exercises in the hall those in attendance marched to Mount Pleasant cemetery, where the graves of departed soldiers were decorated with flowers and flags.

## SANTIAGO IN DANGER

It Is the Destination Of the First Invading Force

## OFFICIALS ADMIT THE PLAN OF THE CAMPAIGN

Washington, May 31—Special—The invasion of Cuba has already begun. Many troops have embarked from Tampa. These include heavy artillery with siege guns, engineers' corps with pontoons for landing, and its force of road builders and tools. One of the first transports to leave carried a regiment of cavalry, and at Key West was joined by the naval transport Panther with its seven hundred marines, which will constitute the pioneer landing party.

Mobile, May 31—Special—A section of the Fourth army corps is making active preparation for embarkation. The who'e of the troops here look for an order to go to Cuba at any hour.

## Plans of the Campaign.

Washington, May 31—Special—There has been an abandonment of the pretense of ignorance as to the situation of affairs at Santiago by officers of the navy department. The facts stated in these dispatches several days ago—the definite knowledge that Cervera and his fleet are confined in the harbor, with starvation menacing the entire forces if the ships remain there and destruction awaiting them if they attempt to leave—are now freely acknowledged. It is likewise admitted that the plan of campaign outlined in these dispatches has been practically determined upon. Schley will continue his blockade at the entrance of the harbor, and be ready to sink the Spanish warships as they emerge from the narrow channel one by one. Within a few days several thousand men of the regular army will be landed at the mouth of the Jarama river, a short distance east of Santiago, and march toward Santiago. From the heights surrounding the city and harbor the fleet will be shelled and the city and its defenses reduced. To escape this fire from the rear Cervera will be compelled to make a dash for the open sea. As his ships emerge they will be sunk or captured.

Washington, May 31—Special—Santiago is the objective point of the invading army now departing from Tampa. There is no longer any concealment of this, officials in the navy department making frank admission of the fact. Secretary Long said this morning he had no doubt the Spanish fleet would be captured and it only depended upon the army how soon the end came. It is said that as soon as Santiago is captured the Cuban government will be established there. After Santiago's fall the occupation of Porto Rico will be undertaken.

## Cervera in a Bad Fix.

Kingston, Jamaica, May 31—Special—The British bark Nelson arrived here this morning from Man-of-War Bay. She reports having taken on board at Point de Maysi, a Cuban from Santiago, who left there three days ago. The Cuban says Cervera's fleet is short of coal, and the officers are carefully husbanding it. The fires are kept banked, and the utmost care is exercised to prevent waste. In his opinion the supply will be completely exhausted within two weeks. Little coal is to be had at Santiago, and what there is is of inferior quality. He thinks Cervera must seek another port of supply within a few days or allow his ships to become absolutely worthless. Provisions are also scarce and dear, but Cervera takes what he wants for his fleet without payment.

## Draw the Spaniards Out.

Key West, May 31—Special—Advices just received from the American fleet are to the effect that an effort will soon be made to draw out the Spanish squadron. To this end the bombardment of the fortifications at Santiago may soon be ordered.

## Not Looking for Peace.

Madrid, May 31—Special—In the cortes last evening Minister Sagasta declared that no negotiations were on foot with any power looking to peace or interference with the United States in behalf of Spain.

## Troops For Manila.

Washington, May 31—Special—It is stated positively here that Gen. Merrit will get the five thousand regular troops that he wants for Manila.

Milwaukee Carnival Week.  
Carnival week at Milwaukee, June 27 to July 3, will rival the Mardi Gras at New Orleans. Those having the celebration in charge believe that the Wisconsin festivities will even be more attractive than those of the far famed southern city. At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. The grand pageant, illustrating the history of Wisconsin, will consist of twenty floats. These floats are rapidly nearing completion and are said by the contractor, who has devoted his whole life to this business, to be the finest he has ever yet constructed. Low fares on all roads and boats will be given for Carnival week.

## TO DISPOSE OF CERVERA.

Naval Strategists Considering the Position.

## MAY BE COMPELLED TO FIGHT.

The Bombardment of San Juan by Admiral Sampson Upset the Plans of the Spanish Admiral and Caused His Present Flight.

Washington, May 31.—By feinting the withdrawal of his squadron off the entrance of Santiago harbor Commodore Schley led the Spanish admiral into an attempt to escape from the trap in which he has been held, thus enabling the fact of his presence to be absolutely ascertained.

After finding that he was discovered, Cervera returned to the protection of the inner harbor.

It is the general impression in Washington that Commodore Schley will immediately begin an attack on the harbor defenses of Santiago.

After destroying these defenses he will force his way into the inner harbor and give battle to the Spaniards.

The fight is expected to be short and furious, and the utter annihilation of the Spanish fleet is a foregone conclusion.

The plans of campaign already decided upon, but held in abeyance until the location of the Spanish fleet was definitely ascertained, will now be vigorously executed.

It is believed the bombardment of Havana will be no longer delayed.

Key West, Fla., May 31.—Everybody knows now that Spain's flying squadron, four splendid cruisers and two torpedo-boat destroyers, is imprisoned in Santiago harbor. This fact has been known here forty-eight hours, and the speculation now is over the probable disposition of the Spaniards—whether they will be blockaded or the forts reduced and the vessels compelled to

In the latter case there can be but one result, for Commodore Schley has some of the finest ships in the world, to say nothing of cruisers and various smaller vessels, and could in a few days be re-enforced by other powerful warships. It would be foolhardiness on the part of Cervera to offer battle.

An interesting story remains to be told of the reasons which led Cervera to Santiago, and of the way in which he was hemmed in. It is now known that when the Spanish admiral sailed for the West Indies he expected to enter San Juan de Porto Rico for coal and supplies. On touching at Curacao for news his plans were upset by the receipt of dispatches telling him that Rear-Admiral Sampson had bombarded the San Juan fortifications and was still in the neighborhood of Porto Rico. Thereupon Cervera sailed for the south coast of Cuba. Why he entered Santiago harbor instead of the harbor of Cienfuegos is not known, but the American commanders were inclined to think the Spaniards would go to the latter port.

It is certain that Cervera could not have escaped from Santiago without being discovered, for the American scouts had been prowling about the port for ten days, and other scouts had not been far away. Practically Santiago has been blockaded for that length of time. Cervera's coal ship, which followed him from Curacao to Santiago, was captured last Wednesday, and at the very moment when the queen regent was cabling her congratulations the toils were tightening about him.

The belief here is that all other movements in the West Indies will be held in abeyance until the Spanish squadron is disposed of. In case Santiago is attacked the news of battle will be sent from Mole St. Nicolas, and the prizes and wounded will be sent to Key West.

Interesting light is thrown on Admiral Cervera's plans by the log of the Restormel. She sailed for San Juan de Porto Rico, where the Spaniards expected to coal. San Juan being deemed unsafe, Curacao was selected, but the collier failed to connect with the fleet there, and was ordered to Santiago. Owing to her leak, she did not reach Santiago, the Spaniards remained in port, short of coal, and so were caught.

## Prohibitionists to Meet.

Peoria, Ill., May 31.—Prohibitionists from all parts of Illinois have begun to assemble here for the state convention, which opens Wednesday morning. Candidates for state treasurer and superintendent of schools will be nominated. Several candidates are already on the field. Hale Johnson, of Jasper county, who was the candidate for vice-president in 1896, will be the permanent chairman. W. A. Brubaker, of this city, will be secretary.

## Amendments Not Wanted.

Washington, May 31.—The senate committee on finance was in session for three hours Monday considering amendments which have been suggested to the war revenue bill. The time was spent largely in an exchange of views upon the policy of accepting any amendments which are not germane to the bill, the result being a determination to accept none such of whatever character.

## German Catholics Convene.

Appleton, Wis., May 31.—The German Catholics of Wisconsin, 17,000 strong, have possession of this city, the occasion being the sixth biennial convention of German Catholic benevolent societies. There was a parade of societies Monday afternoon in which 7,000 took part.

## MCKINLEY'S EARNEST WORDS.

President Sends an Eloquent and Impressive Message to Gettysburg.

Washington, May 31.—The president wrote the following letter expressing in the exercises at Gettysburg Monday: his regret that he could not take part "Executive Mansion, Washington, May 30, 1898.—Mr. Louis D. Wine of Committees Memorial Day Exercises, Gettysburg, 1898.

"My Dear Sir: Engagements here, the nature of which is well understood, will prevent my taking part in the Memorial day ceremonies at Gettysburg this year, attendance upon which, under other circumstances, would have afforded me especial gratification.

"Time only enhances the lasting value and demonstrates anew the true significance of these inspiring patriotic observances. Whatever may be the character of its temporary problems, this liberty-loving nation is not and never can be forgetful of the immortal heroes of the civil war. For those who served, as well as for those who fell at Gettysburg—now so peaceful and beautifully adorned with the highest creations of the sculptor's art—our reunited fellow-countrymen, without regard to locality, creed or political faith, have an abiding respect and the most cordial esteem.

"Today those who contended on this historic field nearly thirty-five years ago and their descendants are mustering under the same flag, enthusiastic in their devotion to the nation and willing to make any sacrifice for its honor.

"The debt of gratitude which we owe to the nation's defenders can never be repaid, either by this or future generations, yet the acknowledged gift of this obligation each year, in various forms and in a multitude of places throughout this broad land, purifies our ideas and brings us all nearer together in sympathy of sentiment and unity of purpose.

"No time could be more appropriate than the present to approach in a fitting spirit these sacred themes of the love of country and the rights of man.

Generations come and go and the issues for which they fought and died soon pass into history, but the living principles of undertakings worthily accomplished, for an unselfish purpose, abide forever and guide us to a nobler destiny and still greater achievements as a nation.

"Very sincerely yours,  
"William McKinley."

## RECIPROCITY WITH FRANCE.

Treaty Negotiated by Kasson Was Signed Saturday.

Washington, May 31.—It is stated on good authority that the trade discussion with France which began directly on the appointment of Mr. Kasson to take charge of reciprocity negotiations has come to a successful conclusion. The negotiations have been conducted under the third clause of the tariff act of 1897. It is understood that the commercial arrangement thereunder was signed last week by Mr. Cambon, the French ambassador, on the part of France, and by Mr. Kasson, special plenipotentiary on the part of the United States. The agreement is to take effect June 1, when the French minimum rates upon products of the United States exported to France will take effect. The proclamation of the president announcing this fact will be issued today or tomorrow.

The agreement makes the following tariff arrangement:

In favor of the United States—Manufactured and prepared pork meats are reduced from 100 francs to 50 francs per 100 kilos (approximately 200 pounds); lard and its components are reduced from 40 francs to 25 francs per 100 kilos; table fruit, canned meats, dried or pressed fruits, common woods, logs, paving blocks, staves, hops and apples and pears, crushed, cut or dried, at the minimum French rate of duty.

The reductions in behalf of France are as follows—Argols shall pay a duty of 5 per cent ad valorem; brandies or other spirits, \$1.75 per gallon; works of art, 15 per cent ad valorem; wines, 35 cents per gallon. No reduction is made on champagnes, which remain dutiable as fixed in the Dingley tariff law.

Clarke and His Crew Commanded. New York, May 31.—A special from Washington says: "Secretary Long has officially commanded Captain C. E. Clarke and the officers and men under his command for their excellent work in bringing the battleship Oregon safely to Key West. This commendation was given upon the telegraphic announcement from Captain Clarke of his arrival at Key West, and not upon his mail report, which is expected to reach Washington Tuesday. The secretary's letter is a pleasant statement of facts concerning the cruise, and highly compliments Captain Clarke and his subordinates for their work."

Sigsbee's Exploit Praised. Key West, May 31.—Captain Sigsbee's exploit in getting near enough to sight the Spanish fleet in Santiago harbor is favorably commented on here. To do this the St. Paul must have run fairly within range of the batteries. It is said here that Captain Sigsbee volunteered for the duty, claiming that he had been within 1,500 yards of the mouth of the harbor once before and that he could go in again. The commanders of all the mosquito fleet here have to a man volunteered to go into Santiago, discover the fleet and blow it up. Apparently the job is to be left to heavier ships.

## Objects to Refugees' Escape.

New York, May 31.—A journal bulletin says the Spanish consulate at Kingston, Jamaica, has refused to let the steamer Adula carry away American refugees to Trinidad from Cuba.

## IGNORES THE TRUTH.

State Department Is Easy on the Austrian Minister.

Washington, May 31.—Dr. Hermann Schoenfeld, professor of continental history in the Columbian university, to whom a proposition to perform certain acts for Spain was made by Minister Hengelmuller of Austria, admits that he visited the Austrian legation at the request of Hengelmuller and was asked to take care of Spanish interests, but he declares there was nothing illegitimate in the proposed transaction.

He says that the Austrian legation was designated by Polo Bernabe to guard Spanish affairs in the United States during the war and that there are a number of wealthy Spaniards in the country who must be protected.

It was suggested, Dr. Schoenfeld says, that he act in a legal capacity. This is the explanation as it is made after two days of consultation, but to those who are familiar with the facts it is rather thin.

In the first place, the Austrian legation is provided with a chancellor who looks after all legal matters; in the second place, Calderon Carlisle is the attorney who has conducted Spanish legal business in the United States the past several years and is still retained; in the third place, Dr. Schoenfeld is a doctor of philosophy and knows nothing about law.

The facts are that the administration does not want complications at this time and prefers ostensibly to ignore the evidence laid before the state department.

## Harry and Leon Draw.

New York, May 31.—Jimmy Barry met Casper Leon at the Lenox Athletic Club Monday night for a twenty-round contest for the bantam championship of the world, and after fighting twenty rounds which were productive of most scientific work by both boys the referee, Johnny White, of this city, called it a draw. There was little to choose between the boxers at the finish.

## To Stop Export of Money.

Madrid, May 31.—In the chamber of deputies Mr. Pulgarver, minister of finance, presented a bill to prohibit the exportation of silver money.

## Gladstone's Subtlety.

There were moments in his career when the inference might have been drawnable that Mr. Gladstone had taken to his bosom Tallrand's dictum that language is given to us to conceal our thoughts. He could be as inscrutable as the Sphinx when he wished, and was a genius in the diplomatic art of constructing sentences with apparent precision and pugnacity, which, without transposition, could be made to bear very dissimilar interpretations. He could be pried with questions, and could answer them all apparently satisfactorily, without divulging what was sought if he thought it expedient to do so. William H. Ridgell in Collier's Weekly.

Mr. John Peterson, of Paterson, La., was very agreeably surprised not long ago. For eighteen months he had been troubled with dysentery and had tried three of the best doctors of New Orleans, besides half a dozen or more patent medicines, but received very little relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy, having been recommended to him, he gave it a trial and to his great surprise, three doses of that remedy effected a permanent cure. Mr. McNamara, a well known merchant of the same place, is well acquainted with Mr. Peterson and attests to the truth of the statement. This remedy is for sale by People's Drug Company, corner Main and Market streets.

"I would not be without Chamberlain's Remedy for its weight in gold," writes D. J. Jones, of Holland, Va. My wife was troubled with a cough, for nearly two years. I tried various patent medicines, besides numerous prescriptions from physicians, all of which did no good. I was at last persuaded to try a bottle of Chamberlain's Cough Remedy, which promptly relieved the cough. The second bottle effected a complete cure." ## GOVERNOR NOT TO BLAME.

In spite of the fact that Gov. Scoville has a receipt for the charges paid for expressing his cow from Oconto to Madison, A. R. Hall continues to reiterate the charge. Mr. Hall thus shows that he does not intend to be fair, so no attention need be paid to his mouthings.

When Gov. Scoville moved to Madison, it became, of course, expedient for him to ship some things by express. The governor did not make the shipments in person, but directed that they be sent.

The family cow, a small black and white Jersey, was shipped in this manner. When he took up his official duties, the governor had a good many things on his mind, and gave no more thought to the details of moving his goods, as Private Secretary Anderson had that work in charge. Some time afterward the story was circulated that the cow came through on an express frank. Then the governor asked Colonel Anderson if the charges had been paid. Mr. Anderson looked the matter up, and found that they had not, as the express company had simply delivered the animal at the executive barn, and said nothing about the pay. The governor then notified the express company that he desired the bill to be sent to him. Several days passed, and the bill was not presented. In response to an impetuous notice to present it immediately, the bill was made out, presented and paid.

That is all there is to the cow matter.

The express companies seem to seek chances to avoid collecting the charges on shipments sent to the state officers, and especially to the executive office. Unless a watch is kept, the governor gets no chance to pay charges. Both he and Private Secretary Anderson keep their eyes open to prevent this practice of the expressmen, but occasionally a charge escape them. In that case a bill is never presented.

Gov. Scoville uses no express franks, and if packages are delivered at his office or home, and the express companies mark them "paid," or give no notice that charges are due, the governor is certainly not to blame for the action of the company.

The La Crosse Chronicle, democratic, prints this paragraph: "Assemblyman A. R. Hall writes the Milwaukee Sentinel a column and a half letter to say that he is opposed to Governor Scoville's renomination. This is almost as sensational as the war bulletin announcing the safe arrival of the battleship Oregon."

Out of \$93,000,000 of exports for the month of February, 1898, American ships carried only 4.8 per cent., leaving 95.2 per cent. to the vessels of foreign countries. With suitable protective legislation this proportion would soon be exactly reversed.

The Spanish torpedo boat destroyer, *Terror*, seems to be dodging all over the Caribbean Sea in the effort to keep out of the way of American warships. The only terror her name inspires is among her own officers and crew.

In awarding the contract for two battleships to the Cramp Shipbuilding Co., Russia has broken a long established rule. These will be the first war vessels in the Czar's service that were built in a foreign shipyard.

The St. Louis Globe-Democrat suggests that it may be that the Spaniards call the Americans pigs on account of the amount of melted iron we have been dropping on them lately.

Admiral Sampson has been in the navy forty-one years, and was in much of the hardest naval fighting of the civil war.

There is a new firm in business—Sampson & Schley, bottlers of choice Spanish wet goods. Address as above in care of Navy department, Washington, D. C.

The report that Cervera is bottled seems to be well founded. In fact, he is in worse condition than that—just bad, so to speak.

## RUSSIA GIVES US ADVICE.

Anglo-American Relations Discussed in the Press.

## EFFECT OF THE RECENT WAR.

Prediction Is Made That the United States Will Become Active in International Affairs and That They Will Turn to France and Russia for Support.

Paris, May 31.—Everything goes to indicate that Russia is trying to edge into the Anglo-American agreement. Russian opinion is mostly concerned with the war in its bearing upon affairs in the far east, and consequently the Russian press is striving with might and main to show the impossibility of an Anglo-American alliance, which would be calculated most of all to affect the far eastern situation.

Thus the *Novo Vremya* says in a recent editorial:

"The United States has been drawn out of its completely isolated position by the war with Spain, which in the end will bring the great American republic in closer touch with Europe.

"This does not imply that after the war with Spain the United States will begin a fresh war with another power, but will proceed to give voice to all the matters of old world policy in order to defend its power in the new world and the interests of its trade and commerce.

"All European powers have colonies in America, and first of all, Great Britain, with her Canadian possessions, will feel the effect of this awakening to an active policy among the ruling classes of 75,000,000 citizens of a rich republic.

"During recent years the United States has been to open conflict with European states—with Great Britain over the Venezuelan boundary dispute and with Germany over the tariff question. In the German and British press voices were raised calling the European powers to combine and offer resistance to the United States because the latter was preparing to ruin the old world with its system of protective duties.

"Americans have also become interested in the far east, but it will be some time before the birth of an Anglo-American alliance, by means of which Britain would like to force Russia, then France and afterward Germany out of China. The Americans will never consent to pull the chestnuts out of the fire for Great Britain.

"This much is true, that an end will come to the unconcerned attitude of the United States toward events outside America. The first definite step toward an active policy has been taken by Americans. Soon, whether they will or no, they will have to take a second, and then a third. The war with Spain will not last forever. Hostilities will cease and old reckonings now seemingly forgotten will be again produced on either side.

"No one, therefore, should be deceived by the assurances of the London press that the relations between Great Britain and the United States are daily improving and the relations between France and the United States daily more strained. Naturally that is desired in London, but not all wishes are realized.

### HARD MARCHES TEST THE SOLDIER BOYS

### CROSS COUNTRY RUN FOR JACKSONVILLE TROOPS

JANESEVILLE MEN STOOD THE TRIAL WELL AND ARE NONE THE WORSE FOR THE EXERCISE—GENERAL BOARDMAN REVIEWS THE TROOPS—GOSSIP OF LOCAL COMPANY.

CAMP SPRINGFIELD, JACKSONVILLE, FLA. May 28—Yesterday the entire division was taken out for a review. In anticipation of a visit from Gen. Lee, who is to command us, a practice review was given and Gen. Boardman (who was here yesterday to exchange printed paper commissions for permanent ones of officers) acted as reviewing officer.

It speaks well for the general health of the men to note that, in the morning, "A" company was given a cross country run outpost march of about ten miles lasting until noon, and after a short rest and dinner, turned out for the afternoon review. It isn't the coolest sun in March under that I've ever seen but the glorious sea breeze helps wonderfully in keeping up the men's spirits. Today not a man reports the worse for wear and they had a severe march this morning in which maps were made of country covered.

Corporal Hall finds his training in drafting of excellent use to him in this work.

Your correspondent witnessed the first parade of the North Carolina boys and he can now realize fully just how good Wisconsin has been to her men and just how excellent has been their training.

It was very funny, all sorts of uniforms, all balls of soldiers. Everything wrong and generally exceedingly "bum." The only good thing of the whole regiment on parade are their horses. The officers entitled to horses have magnificent mounts. But the volunteers from the state famous for a remark of its governor, are trying hard. Handicapped by lack of training, by ignorance of officers, by lack of anywhere near proper equipment, it is no wonder they cannot do better. A month from now, judging from their earnestness, they will be all right.

After parade, a delegation of Wisconsin volunteers visited the other camp and gave them a rousing round of cheers. Later it was returned with interest. The Southerners sang "Dixie" and the Northerners sang "Yankee Doodle," and they all sang "America" and sang it in a way that stirred up a feeling of good fellowship that will be lasting.

The usual camp sick list is noted but no serious trouble is found. The change of life, food and climate has had a surprisingly small effect.

A short hair cut is very much "à la mode" and friends of Privates Fletcher, Sisson, Coryell brothers, anyone brother, Dixon and a good many members in good standing in this gathering of Janevillians would hardly recognize them. A general growth of whiskers also helps disguise the lips and cheeks of many of us.

Guard details of today are Corporal Brown and Privates Slims, McQuade, Mason, Pearl and Sudek.

Private Morton is a member of today's "water guard," watching over our water supply.

Some one of the bands here have a concert every evening that is a concert and well attended they are, too.

Private Flint has been detailed for a company cook. Artistic Schmitz finds his duties commanding and waggoner Youmans (and all of us) is anxiously awaiting his team of army mules.

## ALL THE NEWS OF THE BADGER STATE

### LITTLE CHANGE IN STATUS OF THE OSHKOSH STRIKE

Efforts for a Settlement of the Difficulties Bring Few Results—Tomorrow May See Developments—German Catholics in Session at Appleton—A Volunteer's Marriage.

Oshkosh, Wis., May 31.—The Woodworkers' strike has been in progress now two weeks and the only stop toward adjustment has been of a tentative rather than actual nature. In the fortnight specified, two of the seven sash and door factories affected have been compelled to close down, the management of one in so doing burling defiance at the union and declaring that they would never start up again until they could do so with a crew of non-union men. There has been absolutely no disorder or drunkenness and the movement up to date has been admirably managed.

Sunday afternoon a second mass meeting was held in North Side Turner hall. That building was packed to suffocation and there were large crowds outside. The attendance of ladies was noticeably large. Thomas L. Kidd presided. The speakers were F. J. Weber, of Milwaukee, and Richard Braunschweig, of Chicago. The latter's address was in German. Mr. Weber exhorted the union men to stand firm, assuring them that that was the only condition precedent to success. He urged the wives of the strikers to use their influence to keep their husbands in line as better wages would inevitably follow this course. Both orators aroused enthusiasm.

Tomorrow is awaited with interest, though not with definite hope, for on that day conferences, it is expected, will be held between the men and the manufacturers. These conferences were brought about by the state board of arbitration, but as they are rather ex parte in their scope they are rather more in the nature of armed reconnoissance than anything else.

### A CITY OF CONVENTIONS

Appleton Entertains German Catholic Benevolent Societies

Appleton, Wis., May 31.—This city has now gone from the control of the Grand Army into that of the German Catholic Benevolent societies of the state and the first of the hosts of the German speaking visitors thronged into the city Saturday afternoon on special trains from Milwaukee and other Wisconsin cities as well as those along the lake shore.

The first feature of the program for the convention of the societies was the presentation of the German drama "Theodosius," by local actors. Sunday witnessed the unusual ceremony of the blessing of a United States flag in the church and its presentation to the "Staatsverbund." This ceremony was the first of the day's exercises. A business session was held and the rest of the day devoted to socialization. One of the most characteristic features of the gathering is the fact that every organization brings its own brass band and the blare of brass will wake the natives to a realization of the presence of Germans.

A Fond du Lac Volunteer Weds Before Going to the Front.

Fond du Lac, Wis., May 31.—Mrs. H. G. Steenborg received a letter from her son, Hubert S., who is in the medical department of the Second regiment at Chickamauga. After describing camp life and the wonderful scenery about the famous old battlefield, he tells his mother a secret, that he and Louise Huntington were married, the event taking place on the morning Co. D left Ripon for Camp Harvey. This was a great surprise to Mrs. Steenborg, but not a regretful one.

### BAGGART WAS SQUELCHED

How Gov. Scoville "Took Down" a Southerner Who Insulted the President.

A special dispatch to The Evening Wisconsin says: "La Crosse, Wis., May 29.—[Special]—James B. Canterbury, a prominent old soldier and a republican who is a great admirer of Governor Scoville, has just returned from Appleton, where he attended the department encampment of the G. A. R. He tells until now an unpublished story on the governor:

The scene of the incident is Hot Springs, Ark., where the governor made a short stay a few weeks ago, and it shows how he completely routed an unpatriotic Southerner. Early one morning the governor dropped into a typical Southern restaurant to see what was going on. This was just before war had been declared on Spain, and there were a half dozen denizens of the place discussing the situation. One big strapping bully had the floor and he was calling President McKinley and his advisors traitors and cowards for not declaring war. The others said nothing.

Governor Scoville quietly remarked that he thought the best interests of the country were in safe hands: "the president is a patriot and a statesman."

This added fire to the southerner's fury; he came back at the governor with a fierce declaration that "any man who would stick up for McKinley is a traitor and a coward."

Governor Scoville took a Loyal Legion button out of his pocket, placed it on the lapel of his coat and replied: "I served through the late war; I don't think I am a coward. I don't think you ever were a soldier and I do think you are a coward. Any one who will attack the president as you have done is disloyal and in my opinion a coward."

The crowd cheered and declared that the fellow with whom the governor had the little set to "is the coward in Arkansas!"

The governor turned on his heel and walked away without revealing his identity.

THE GAZETTE AGED, W. W. CLARK, Manager, Milton, Wis., May 31, 1898.

Memorial day was appropriately observed here and the attendance was quite large, taking into consideration the fact that the exercises were held in the forenoon and indoors. It was the Collins brothers first visit to their old home for many years and during their brief stay they met quite a number of old friends and associates. W. R. Collins holds an important position with the "Sojo" road and B. F. Collins is in the wholesale fruit trade.

We trust their future visits will be of longer duration and more frequent.

**GENERAL MILES AT TAMPA.**

Will Personally Conduct the Invasion of Cuba.

**FOUR EXPEDITIONS TO GO.**

Belief That a Large Force Is to Be Sent to Attack Santiago by Land, While Schley's Guns Fire from the Sea—Quick Decisive Action Promised.

The invasion of Cuba was begun Monday. It was announced that troops embarked for the island, although the number sent and their destination are kept secret. Transports sufficient to carry 30,000 men have been in readiness several days.

Washington, May 31.—Adjt. Gen. Nelson A. Miles, commanding the United States army, accompanied by the members of his family and his personal and official staff, left Monday night for Tampa, Fla. Gen. Miles will establish temporarily his headquarters of the army at Tampa. He will personally direct the movements of the troops and the invasion of Cuba.

Gen. Miles made no secret of the immediate departure of the army from Tampa, though he declined for obvious military reasons to encourage any speculation as to its destination.

The size of the force to be landed nearer Santiago does not exceed 15,000 men, of whom it is expected not over 5,000 will actually participate in the siege, the others being held in reserve for use if extraordinary resistance is encountered. The outlook, however, is for quick, decisive action, and there is confidence among military men that the city will fall within ten days; that it is not the intention of Gen. Miles to remain at Santiago an unnecessary hour after the capitulation of that port and the successful accomplishment of the purposes of invasion. On the contrary, most of the troops will be quickly re-embarked in the transports, and the combined military and naval forces will proceed directly to take possession of Porto Rico, being reinforced for this purpose by additional troops from Tampa. These reinforcements will consist largely of volunteers, including those who have exhibited the highest efficiency among the commands now at Camp Thomas, Chickamauga Park.

Perhaps some of those commands will reach Key West about the time the main expedition starts from there, and they will be prepared to follow immediately the first expedition eastward if such action at that time appears to be desirable.

It is probable that there will be no less than four separate military expeditions, and that these will be landed at four different points. Whether Porto Rico is one of these points or not cannot be learned. Before the entire force which it is proposed to use in Cuba can be landed the transports must make four separate voyages across the straits. Arrangements have been made to utilize the services of the insurgents to the largest possible extent.

**TO FILL INDIANA'S REGIMENTS.**

Gov. Mount Instructed to Raise More Men.

Indianapolis, Ind., May 31.—Gov. Mount received a telegram from Adjt. Gen. Corbin Monday announcing that the war department would detail from each of the four Indiana regiments now in the field two field officers to come home and recruit men enough to fill the organization to the maximum. The governor was asked to designate the field officers and he telegraphed each of the regimental colonels asking them to make nominations.

It will require twenty-five men for each of the state's forty-eight companies of infantry in the field to bring the regiments up to the maximum and forty-eight men for each of the two batteries of light artillery. It is announced by the governor that the cities and towns which furnished the companies will be expected to furnish the recruits needed. The state will be authorized to form one regiment in addition to the 1,300 recruits under the second call.

**Town's 31st Mustered In.**

Des Moines, Iowa, May 31.—The old Third regiment of the Iowa national guard, the Fifty-first Iowa volunteers, was mustered into the service of the United States by Capt. Olmstead this morning. Col. John C. Loper of Des Moines is in command of the regiment, which contains the two Des Moines companies A and H. It is thought by Col. Loper, Gen. Byers and Capt. Olmsted that the regiment will be ready to get away Thursday. Unless the plans of the war department are changed, Iowa is to have no new regiment under the second call for volunteers.

**Details of the Call.**

Washington, May 31.—Adjt. Gen. Corbin is now working out the details of the second call for volunteers. The apportionment of the 75,000 men among the various states has not been fixed definitely, but will be in a day or two. Communications from the governors of the several states received by the adjutant general indicate clearly that they approve of the plan to recruit the regiments from their states up to the maximum strength out of the second call. As heretofore indicated, this necessary recruiting will absorb about 50,000 men, leaving about 25,000 to be organized into additional regiments.

**Work on Manila Expedition.**

San Francisco, Cal., May 31.—The next expedition to the Philippines is absorbing all interest. Gen. Merritt

and his staff and corps of assistants are hard at work making the preparations necessary for the great military movement. The date of the second expedition has not been announced, further than that it will be at the soonest day possible. It is said now that Gen. Merritt may wait for some additional troops from the east, few of those now here being in condition to go immediately. It will be longer than was at first anticipated before many of the troops can sail out of the Golden Gate.

**Great Army Now Mustered In.**

Washington, May 31.—Adjt. Gen. Corbin said Monday that 121,500 troops had been mustered into the volunteer army under the call for 125,000 men, and that the remaining 3,500 men were in state camps ready for the visit of the mustering officers. He said that all the states and territories had filled their quota so far as the recruiting of the troops is concerned, and that while three states were apparently behind, it was not their fault, but was due to the inability of the mustering officers to complete their work.

**Eight Regiments for Tampa.**

Camp Thomas, Chickamauga Park, Ga., May 31.—The forward movement of the troops from this monster camp has begun. The long waiting and wondering as to what the war department intended doing with the volunteers here was ended Monday when orders came from the war department that will send eight regiments out of here to Tampa by Thursday next. The men confidently expect to be at once loaded into transports and shipped to Cuba or Porto Rico.

**Bushing War Equipment.**

Washington, May 31.—Contractors are working night and day to provide the army with equipment. There is a lack of rapid-fire guns, but these are being furnished as fast as they are completed. Ordinance officers of the army report satisfactory progress on all orders for guns and powder, but as these contracts were not let until after war was declared it may be some time before they are all filled.

**Spain Not Expecting Support.**

London, May 31.—The Madrid correspondent of the Times says: "It is reported that Senor Sagasta, the premier, during Sunday's cabinet council reassured that Spain did not expect the support, diplomatic or otherwise, of any foreign power, and that there is no question whatever of undertaking negotiations for this purpose through Senor Leon y Castillo, Spanish ambassador at Paris."

**British Ship Captured.**

Key West, Fla., May 31.—The British steamer Restornel was brought in here Monday under her own steam by a prize crew. She was captured while trying to put into Santiago de Cuba with a cargo of coal. The steamer was bound from Cardiff for Porto Rico.

**Protests to Spain.**

London, May 31.—The British government, according to the statement or a London news agency, has sent a friendly protest to Spain with respect to the latter's strengthening of the fortifications opposite Gibraltar at Ceuta.

**Looks for a Battle.**

Washington, May 31.—"I expect to hear news at any moment of a conflict at Santiago," President McKinley said to one of his callers Monday.

**Pope Asks for Peace.**

London, May 31.—A London news agency asserts that the pope has forwarded peace proposals to President McKinley.
